BIOTICS RANGE

BiopHilm

BiopHilm is a polymer-based protector recommended for products containing living microbes.

BiopHilm can be used to increase the viability of microbes by: Protecting microbes against desiccation in low moisture conditions. Protecting microbes against osmotic stress. Protecting microbes against chemical damage.

Treatment: Seed **Dosage:** 0.5 ml per 1 kg seed **Instructions:** Mix BiopHilm with microbial product to be protected. Treat seed in accordance with standard seed treatment practices.
Treatment: Liquid Injection **Dosage:** 1 L per 1000 L Liquid **Instructions:** Mix BiopHilm with microbial product to be protected. Add BiopHilm-microbe mixture to liquid to be injected at planting.

■ 20 Litres ■ 1000 Litres

DIRECTIONS FOR USE: USE ONLY AS INDICATED

Compatibility:

Consult with your chemical distributor regarding mixtures where BiopHilm provides sufficient protection.

Important notes:

Contents may settle. Shake well before use. Keep in a cool (4°C to 24°C) place. Do not allow to freeze. Store out of direct sunlight. Do not use product after expiry date.

Warnings and precautions:

Keep out of reach of children, unformed persons and animals. May cause slight eye irritation. May cause allergic reactions in sensitive persons. Wash hands with soap and water before eating, drinking or smoking. Prevent contamination of food, feed, drinking water and eating utensils. Triple rinse and perforate empty container and do not use for any other purpose.
